

Well construction Q & A

David Jewett to: Dominic Digiulio

12/03/2012 11:47 AM

Dom,

This question (see below) is from the Qs & As for the Pavillion briefing. It stems from the Energy in Depth article suggesting that EPA didn't follow its own guidance. When we talked last week you were following up on the well construction issue. Not sure if you've had a chance to review all of the guidance docs yet, but just wanted to keep you in the info loop on well construction questions. Let's talk later today.

Why didn't EPA follow its own guidance for monitoring well construction ? Handbook of Suggested Practices for the Design and Installation of Ground-Water Monitoring Wells (EPA160014-891034, March 1991)

FYI - here is the current Qs & As doc.
